

## **I am learning how to check my work against the Success Criteria.**

1. Read through the Learning Intention and Success Criteria again.
2. Re-read my work.
3. Highlight, circle or talk about where my work meets the Success Criteria.
4. Check for places where my work doesn't meet the Success Criteria.
5. Make a decision about why any of the Success Criteria aren't present in my work.
  - Have I just forgotten about this SC? If so, I need to go back and make the changes.
  - Am I having difficulty meeting this SC? If so, will talking with a buddy help me? Or do I need to ask the teacher for help?
6. Make any changes to my work that will improve the quality using my own self assessment, or feedback from my buddy or the teacher.
7. Put my name down for a conference or put my work in to be marked.
