

CREATE YOUR OWN VISUAL MATH PUZZLER

Directions: On the next slide choose two to four school appropriate emojis to use in your puzzle.

There are two ways to find emojis.

www.emojipedia.com or click “Insert”, select “special characters”, search “emojis”

Once you've chosen your emojis, place the emojis below and name them.

Example:

 - lemon

 - cherries

 - coconut

 - banana

Your Emojis here:

Now choose the value of 2 of the emojis.

Your Emojis here:

Before creating the puzzle, review G E M/D A/S below:

Grouping - $()$, $[]$, $\{\}$

Exponents - 3^2

M/D - multiplication/division

A/S - addition/subtraction

Create your puzzle. Be sure your puzzle includes at least two operations and three equations.

Solve your puzzle below using algebraic equations:
