

Your joy is so contagious that when I see you my sadness goes away. Especially when you greeted us at the door.

Another reason I enjoy being in your class is that everyday you would tell every student good morning before class would start. That may be a small gesture but it means a lot to me.

---

I appreciate the way you welcome all of us in your classroom with a cherish attitude. The fact that you like to greet us outside your classroom shows that you care about your students. I always know what to do as I walk into the classroom because of the amount of effort you put into the slides that's shown on the TV.
